

YFEP newsletter - September 2020

ABOUT THE PROJECT

For those who missed the previous newsletter "Young Female Entrepreneurial Program **YFEP**" is a Strategic Partnership project aimed at developing an entrepreneurial mind-set and related skills in young women with a weak socioeconomic background.

WHAT WE DID ALREADY

The partnership is now on the last stage of finalizing the Intellectual Output 1 (IO1), a "GUIDEBOOK AND TOOLKIT FOR YOUNG FEMALE ENTREPRENEURS".

The IO1 is a collection of digital materials, information, entrepreneurial skills development exercises and practical instructions for aspiring female entrepreneurs to plan, assess and run a business, as a single entrepreneur or as a joint effort.

The Intellectual Output 3 (IO3) "YFEP-MENTOR / MULTI-MENTORING TECHNIQUES AND PROGRAM" is in its reviewing and finalizing stage.

The IO3 is a digital manual aimed at instructing female seniors' participants to mentor, empower and support others in their development process. In general, the tips can be useful to all people willing to improve their capacity to empower and help others in their work or improvement path.

WHAT IS NEXT

When the IO1 and 3 are finished, the partnership will use the results on the mobilities planned for the project to test the final materials.

The next step is to interview young women to investigate the importance of international programs to foster entrepreneurship for women. The interviews will be implemented in English and will take place during the next couple of months from the partners.

The aim is to produce a short video of the interview to be shared on project's social media. The first interview will be out till the end of the month.

ABOUT THE PARTNERSHIP

Coordinator

- Fundacja Autokreacja (PL)

Partners

- The Nest Social Cooperative Enterprise (GR)
